

3.0t Short Platform Low Rise Scissor Lift SF 9130

Key Features

- Lifting Capacity
- Low profile access of 95mm
- Maximum working height of platforms 930mm
- Electro-hydraulic operation
- Fast lifting time of 30 seconds
- Suitable for use in fast fits & tyre shops
- Extendable lifting platforms
- 1 Phase power supply

3.0t Short Platform Low Rise Scissor Lift SF 9130

About SF 9130

The SF 9130 is short platform low rise scissor lift developed specifically for use in the fast fit / tyre shop environment.

With a compact design and the opportunity for easy re-location the SF 9130 provides a time & cost saving wheel-free lifting solution where rapid access to wheels, brakes and certain suspension and steering components is required.

With a lifting height of 930mm achieved in 30 seconds vehicles of up to 3000kg are safely positioned at a convenient working height to enable a wide range of servicing work to be undertaken.

The SF 9130 also features a very low profile when lowered of just 95mm, allowing access to most cars and car derived vans, even those with low front spoilers.

Part Numbers and Ordering information

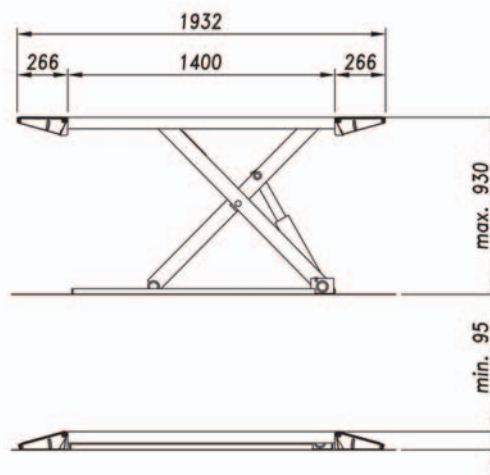

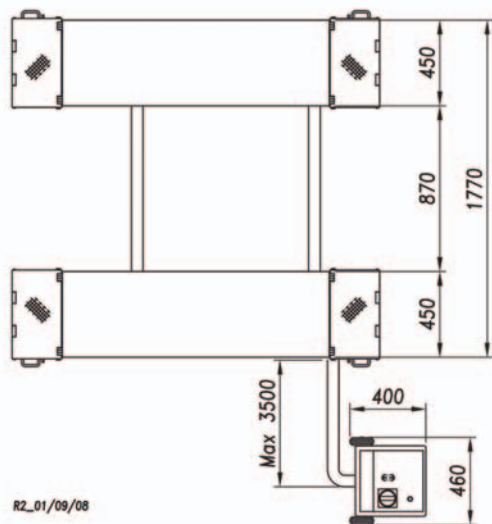

Description	Part No
3.0t Short Platform Low Rise Scissor Lift	SF 9130

Technical Specifications & Dimensions

Maximum Load	3000Kg
Lifting / Lowering Time	30 - 35 secs
Maximum Lifting height	930mm
Minimum Lifting height	95mm
Length	1400mm / 1932mm
Overall width	1770mm
Motor	230/400V 50Hz

Options & Accessories

20mm Pads	OA 60603/20
40mm Pads	OA 60603/40
80mm Pads	OA 60603/80
Wheel Kit	OA 60568
Aux Ramp for Low Type Vehicles	OA 60160

Tecalemit After Sales Support

All Tecalemit equipment is supported throughout the UK by factory trained Tecalemit Service Engineers. All Tecalemit Engineers are fully credited through Tecalemit's own UKAS accredited laboratory. In addition to annual calibration Tecalemit offers a comprehensive range of extended service and maintenance packages – please contact your supplier for information.
